CORPORATE Profile

At **GLM Products, Inc.** we take things a few fathoms deeper. While most aftermarket marine parts manufacturers outsource their design and production, GLM's specialty is the enhancement of our product line by using a highly skilled in-house design and engineering crew. Our ability to design O.E.M. replacement parts that increase the reliability, performance and power of a boat is GLM's key advantage in the aftermarket marine parts industry.

Our parts are 100% compatible with all major O.E.M. brands and are produced using the highest quality materials and the latest in technological advancements. New and innovative processes such as "Lost Foam" casting sets our manifolds apart, creating new standards for the industry to follow. At GLM we travel a straight course in producing high quality, cost effective aftermarket marine products. We also offer many exclusive products not available from the O.E.M., designed, engineered and manufactured by GLM. The precision is in our craft, from the smallest bolt to the most complex bevel cut gear, GLM's the aftermarket brand of choice. GLM's crew includes: dynamic sales and marketing personnel, impeccable design & engineering personnel, and the most knowledgeable technicians to insure the best customer service and satisfaction in the industry. Come aboard and you can rest assured you'll be afloat, moving full speed ahead.

Keeping boaters on the water for over 20 years.

The Leader of the Aftermarket Marine Parts Industry

and the rest, they just follow.
