

GLM®

Superior Marine Manifolds

Featuring Lost Foam casting

3YR
WARRANTY
FOR ALL CAST IRON
MANIFOLD/ELBOWS

GREATER CONTROL OVER THE ACCURACY OF WALL THICKNESS.

EXCELLENT DIMENSIONAL TOLERANCES FOR CASTING.

NO STRUCTURAL LIMITATIONS.

MORE RIGID, LESS CHANCE OF FAILURE.

MORE DURABLE AND RELIABLE.

100% complete CONVERSION KITS

4-cylinder MANIFOLDS

100% complete MANIFOLD SETS

REPLACEMENTS FOR:
MERCRUISER GM V6
MERCRUISER GM V8 S.B.
OMC / VOLVO FORD V8 (CAB) V8
VOLVO GM V6 90 (F90)
OMC / VOLVO GM V6
OMC / VOLVO GM V8 S.B.
VOLVO GM V8 90 (F90)
OMC / VOLVO GM V8 S.B.

V6-V8 S.B. & B.B. MANIFOLDS

REPLACEMENTS FOR:
MERCRUISER
OMC
VOLVO PENTA
MARINE POWER
TODDAR
BAR

Exhaust ELBOWS/RISERS

REPLACEMENTS FOR:
MERCRUISER 3 INCH
MERCRUISER 4 INCH
OMC 3 INCH
VOLVO 3 INCH V6
VOLVO 3 INCH V8 S.B.
OMC / VOLVO (CAB) V8
OMC / VOLVO (E) V8
OMC 3.0 / 3.0 H.O.
VOLVO 3.0G1

Dry Joint Replacement MANIFOLD & ELBOW SET

Over 4000 Aftermarket Marine Parts

GLM Products, Inc.

...the Leader of the Aftermarket Marine Parts Industry!

ADVERTISEMENT CORPORATE Profile

GLM Products, Inc.

For over 30 years now, GLM Products, Inc. has been committed to keeping boaters on the water. It's GLM's innovation that sets us apart from the competition. We accomplish this by offering the world cost-effective alternatives to OEM parts. While our competitors manufacture standard OEM replacements, GLM takes aftermarket marine parts to the next level. GLM starts by using superior materials and the latest in technological advancements. Then our highly skilled in-house engineering team re-designs the parts for optimal performance. This results in an aftermarket marine part that is 100% compatible with the OEM, while increasing the reliability and performance. Finally, we offer over 4,000 aftermarket marine parts that include original parts, designed, engineered and manufactured by GLM Products, Inc. With the numerous new products introduced every year, GLM has improved its process to adapt to the ever-changing needs of the marine industry.

GLM's specialty is our superior "Lost Foam" casted marine exhaust manifolds. With exhaust manifolds and elbows, an accurate cast is crucial for the proper function of the part. Through the use of precisely molded foam pieces, a highly accurate pattern for the desired casting can be made. Complex internal passageways are in the mold itself, not formed by cores. The accuracy of the casts prevents thin spots in the internal walls that can corrode prematurely, possibly causing severe engine damage. This also increases the life of the manifold, thus reducing costly repairs for the boat owner. Another advantage to "Lost Foam" is that the cast is more rigid, having less chance of failure. "Lost Foam" also offers excellent dimensional tolerances with no structural limitations for casting. It is more durable and reliable than other types of casting technology. The uniformity of GLM's internal walls enables us to increase the water cooling area inside the manifold by 30 to 40 percent, decreasing exhaust gas temperature, lowering overall engine compartment temperature. GLM Products, Inc. was first in the aftermarket marine parts industry to offer "Lost Foam" cast manifolds in 2002. We continue today to set the standard for others to follow.

We are proud to announce the appointment of Paul Smith as our new National Sales Manager! Mr. Smith brings with him over 35 years of experience in the Marine Industry. As National Sales Manager, he will now be directly responsible for the entire North American Market through his sales office in Fort Lauderdale, Florida.

"I'm very excited to be working with GLM again, it is great to be back," says Smith. Mr. Smith previously owned a Marine Manufacturers' Representative Agency in the Southeast United States for over 22 years, until a few years ago when he took a National Sales Manager position with another marine company. His former Rep Agency, Paul L. Smith & Associates, sold the GLM line of products for more than 20 years.

"GLM has been the leader in the aftermarket marine industry," says Smith, and adds, "The current market is prime, and we offer so many new, innovative, high quality and cost effective parts. So many distributors need a dependable source in replacement engine and drive parts for their dealers, and GLM is the answer!"
